

Do you know what this rock is? yes/no

Do you know how old it is? yes/no

Do you know how it got to Gabriola? yes/no

If you answered with any combination of yes and no's you have won a prize — which is an invitation to GaLTT's Pebble Adventure on Whalebone Beach, Bluewhale Park (entrance at Killerwhale Lookout) on:

Sunday, August 11, 2013 at 2 pm.

We'll go out on the beach in small groups, collect cobbles and pebbles that look interesting, bring them back to the park, sort them, and then we'll talk about what we know, and don't know, about them.

Contrary to an earlier GaLTT e-mail, this is not primarily a children's event; however, children are sometimes extraordinarily adept at finding interesting things, so they're welcome, and if they come along, they can, if they like, help us with the collecting, and we'll do our best to describe any extra-special rocks they find.
